

ABOUT PRADO

Established in 2010, PRADO Preclinical Research and Development Organization Private Limited, Pune is one of India's fastest-growing preclinical CROs. It has gained an outstanding reputation for providing high-quality, globally-benchmarked and cost-effective services for domestic and international clients.

The scientific data and reports from PRADO have an excellent acceptance record with regulatory agencies and have facilitated smooth and timely product registrations approvals for clients.

PRADO is a GLP-certified, CPCSEA and DSIR-approved preclinical research facility.

CERTIFICATIONS

- GLP Certified (GLP/C-235/2024)
- CCSEA Registered Animal Research Facility (1723/PO/RcBiBt/13/CCSEA)
- Approved by DSIR

AWARDS

- Top 10 Preclinical CROs in India - 2022
- Preclinical Research Excellence Award - 2019
- Indian Leadership Award - 2017
- Fastest Growing Indian Company Excellence Award

2017

GLP TOXICITY STUDIES

- GLP Toxicity Studies
 - Acute Toxicity Studies
 - Repeated Dose Toxicity Studies
 - Developmental and Reproductive Toxicity Studies (including EOGRT study)
 - Inhalation Toxicity Studies
 - *In-vitro* and Genotoxicity Studies
 - Immunogenicity
- Efficacy - Animal Models of Human Diseases

PHARMACOKINETICS & ADMEK

- Pharmacokinetics Studies.
- Tissue Distribution Studies.
- Various Routes for Different Matrices.

PATHOLOGY SERVICES

- Necropsy, Gross & Histopathology
- H & E and Special Staining
- Clinical Pathology Evaluation
- Immunohistochemistry

ANALYTICAL-BIOANALYTICAL

- Method Development and Validation
- Bio-analysis, Formulation analysis
- Chemical Characterization - Medical Devices
- Product Life Cycle - Pre-formulation and beyond

AGROCHEM -ECOTOX, PHYSICOCHEM

- Aquatic and Terrestrial studies - Algae, Daphnia, Fish, Honey Bee, Earthworm, Avian
- Reproduction - Earthworm, Daphnia
- Chronic Toxicity- Honey Bee
- Dietary Toxicity - Avian

MEDICAL DEVICES - BIOCOMPATIBILITY

- Cytotoxicity, LAL, Pyrogen tests
- Implantation Studies
- Irritation Studies
- Sensitization Studies
- Hemocompatibility Studies
- Systemic toxicity Studies
- BEP, BER

RISK ASSESSMENT SERVICES

- PDE, OEL, TD50, Acceptable Intake
- Environmental, Toxicological Risk Assessment

VET PRODUCT-ANIMAL CLINICAL TRIALS

- Efficacy & Safety in target Animal Patients
- Species - Dogs, cattle, horse, sheep, goat, poultry.
- Collaboration with vet hospitals & farms
- Ethical permissions

INDUSTRIES SERVED

Pharmaceutical, Biopharma & Biotech (Vaccines & stem cells), Agrochemical, Medical Devices and Animal Health Sectors, Academic and R&D Organizations
